CAPACITY COMPARISON	100 desk size 1,6 m (w) x 0,8 m (d)	100 desk size 1,6 m (w) x 0,8 m (d)	30% INCREASE
	192 conventional cabinet size 1 m (w) x 0,4 m (d)	200 unit Slide size 0,81 m (w) x 0,4 m (d)	
		additional 30 desk size 1,6 m (w) x 0,8 m (d)	

## New way to create office spaces

Modern organization usually assign different work spaces for worker group with same function or job. Nowadays the communication between groups or teams is essential to achieve more productive result. Slide can be use as an effective tools to create such productive spaces and with its low height size, it can act as visual barrier between spaces. Creating good work space without eliminating communication aspect between groups or teams.

## Meeting Point

SLIDE has an ergonomic height so it can be used as a table discussions (work together) among employees. Discussions / meetings do not always have to sit in a meeting room, also can be done while standing in the working room with document that discussed placed above SLIDE. The combination of sitting and standing proved good for the health of employees and eliminate boredom.

## Multipurpose Storage

SLIDE not only can be used as standard archiving tools, but also applicable for other purpose of storage such as: lockers, reclined shelves, compact disc drawer, paper trays, etc. With its diverse application, SLIDE can be an effective work space organizer so all document, paper or other personal belongings can be placed in order. Thus make your work space neat and comfortable, improving your work morale and performance.
